

# LED SHOTGUN LIGHTS

(formerly Tail Gunner)

Designed to replace the rear fender and saddle bag mounting support system on 1992 through present FLH series frames.

## Installation Instructions:

To remove Gem from the bracket, rotate Gem counter clockwise loosening the nut which will relax the compression on the rubber plug allowing you to remove the Gem and plug from the bracket.

### Wiring Instructions:

Black wire=ground

Blue wire= running light

Purple wire=directional light
