CD-TB-1-C

Package Contents:

- Tag Boltz (Pair)
- Locking Washer (2)
- Nut (2)

Fits: Compatible with 12vdc electrical systems with a negative ground.

ATTENTION

Please read all Information below before Installation

Warning: Disconnect negative battery cable from battery; refer to owner's manual. Failure to do so may result in electrical shock, injury, or fire. Secure negative battery cable away from positive side of battery and all other positive voltage sources on vehicle.

Safety First: Always wear appropriate safety gear including safety glasses when performing any electrical work. It is highly recommended that safety glasses be worn throughout this installation process. Be sure vehicle is on level surface, secure and cool.

Important: This product is designed and intended for use as auxiliary lighting only. It is NOT intended to replace any original equipment lighting installed on the vehicle and should not be used for that purpose. This product must be wired so that it does not interfere with any original equipment lighting.

Installation:

1. Mount the LED Tag Boltz to vehicle with supplied mounting hardware.
2. If wires need to be routed through any holes, cover wires with heat shrink tubing to provide a layer of protection.
3. Connect black wire to a good ground source.
4. Connect Red wire to a fused, switched 12VDC power source such as auxiliary power, taillight run circuit or the existing license plate illumination wiring.
5. Check operation.
