WARNING: Cancer & Reproductive Harm — <u>www.P65Warnings.ca.gov</u>.

Founded in 2002 by David Pribula, Custom Dynamics® has been at the forefront of the motorcycle LED lighting industry for over 20 years. Their pioneering use of cutting-edge LED technology has resulted in a range of industry-leading lights and accessories specifically tailored for V-Twin motorcycles, such as Harley-Davidson® and Indian Motorcycles. The company prides itself on offering high-quality, durable products designed for easy installation, ensuring enhanced rider safety and visibility. Beyond lighting, we provide electrical modules, horn and license plate replacements and auxiliary solutions to further improve rider safety. With a strong focus on customer support, we offer a lifetime warranty on lighting and electrical modules.

Batwing & **Road King** DRAG: 2001-2845

MSRP: \$599.95

• FITS: 1994-2024 Harley-Davidson[®] Electra Glide, Ultra Classic, Ultra Limited models (including CVO[™]), 1994-2013 Road King models (including CVO[™]), 2021-2025 Road King Special (FLHRXS), 2009-2025 Tri Glide, 2020-2022 CVO™ Tri Glide, 2010-2011 Street Glide Trike, 2006-2023 Street Glide models, 2010-2022 CVO[™] Street Glide, and 2012-2017 Dyna Switchback (FLD).

Low Rider ST DRAG: 2001-2833 MSRP: \$499.95

• FITS: 2022-2024 Harley-Davidson[®] Softail Low Rider ST (FXLRST) & 2022 Low Rider El Diablo (FXRST).

Road Warrior® Fairing DRAG: 2001-2932

MSRP: \$499.95

• FITS: Harley-Davidson[®] & Indian Motorcycles with Memphis Shades Road Warrior[®] Fairing.

SAE

Society of Automotive Engineers (SAE) set technical standards for the manufacturing, testing and design of automotive lighting. Often, these are incorporated into the FMVSS.

- Dual Headlight PN: 2001-2790
- Headlight + Selective Yellow Fog Lamp Combo Kit PN: 2001-2924
- FITS: 2015-2023 Harley-Davidson[®] Road Glide (FLTRX), Road Glide Special (FLTRXS), 2022-2023 Road Glide ST (FLTRXST) & CVO™ Road Glide Limited (FLTRKSE), 2020-2024 Road Glide Limited (FLTRK), 2018-2022 CVO™ Road Glide (FLTRXSE), 2016-2019 Road Glide Ultra (FLTRU), 2020-2022 CVO™ Road Glide Ultra (FLTRUSE) and 2023-2025 Road Glide 3 (FLTRT).
- Aftermarket amps require Fairing Spacer Kit PN: 2001-2791 (sold separately).

Glide

MSRP: \$599.95

Universal Headlight DRAG: 2001-2792 MSRP: \$399.95

• FITS: Universal, 12 VDC systems. Side mount with provided hardware. No bracket included. 3-wire harness connects to vehicle high beam power, low beam power, and ground.

• By law, all headlights and taillights must be DOT compliant for use on roads and highways in all 50 states. Those without DOT compliance are for off road use only and not legal on US roads and highways. Federal USDOT laws always take precedence over state regulations when both exist.

• Custom Dynamics® in-house engineering team designs and tests products against DOT and SAE standards to ensure headlights, fog lamps, turn signals, brake lights, etc. all carry compliance. You can identify these by a "DOT" and "SAE" marking in the lens.

E CUSTOM DYNAMIC STREET LEGAL IN ALL 50 STATES

FMVSS

Lighting, signaling, and reflective devices are regulated by federal law. These are the Federal Motor Vehicle Safety Standards (FMVSS). FMVSS purpose is to reduce traffic accidents and deaths and injuries resulting from traffic accidents.

DOT

The US Department of Transportation (DOT) establish and administer the FMVSS. To be DOT compliant, lighting must meet the Section 108 requirements of FMVSS.

DRAG: 2001-2844 • FITS: 2023-2025 Harley Davidson[®] CVO Street Glide (FLHXSE), 2024-2025 Street Glide (FLHX) and 2025 Street Glide Ultra (FLHXU).

Pedestal Mount DRAG: 2001-2843 MSRP: \$599.95

FITS: Universal, 12 VDC systems. 3-wire harness connects to vehicle high beam power, low beam power, and ground. Accepts most 3/4" headlight mounting blocks.

 Traditional 7" round motorcycle headlight with Shark Demon[™] high-performance styling and optics. Low beam projects 3600 raw/2651 effective lumens from three projection-style LEDs. High beam adds four additional direct-reflective LEDs boasting an impressive 9080 raw/4485 effective lumens total. Single lamp assembly is completely sealed IP67, waterproof with clear polycarbonate lens and gloss black aluminum housing. Color changing backlight is controlled by magnet operation. Select from one of six colors including orange, yellow, green, blue, purple, or red. Assembly is equipped with H4 connector and includes wire harness to power backlight separately if desired. Headlight also includes mounting bracket or adapter harness if required for plug and play installation.

DRAG PN: 2001-2926 MSRP: \$499.95

 FITS: 2014-2025 Harley-Davidson[®] Touring & Trike models, 1986-2017 FL Softail models with OEM 7" round headlight buckets.

DRAG: 2001-2925 MSRP: \$499.95

 FITS: 1994-2013 Harley-Davidson[®] Touring & Trike models, 2012-2017 Dyna Switchback models with OEM 7" headlight buckets.

Shark Demon® 2 Dual Headlight Kit with Vented Speed Plates

Complete high-performance LED kit includes two high & low beam Shark Demon[®] 2 headlights, gloss black vented speed plates, stainless steel mounting brackets with all required hardware, and plug and play wire harness. Dual bright white DOT headlights feature a low beam of six projection-style LEDs (7200 raw Im/5302 effective Im)and a high beam which adds eight additional direct-reflective LEDs boasting an impressive 18160 raw Im/8970 effective Im. Gloss black vented speed plates fill the void on either side of the lights to blend the race inspired Shark Demon[®] aesthetic with the modern motorcycle style. Decorative mesh enables factory air flow. Direct replacement for OEM headlight assembly utilizing factory mounting points and wiring for a hassle-free installation – no modifications required & no connection to the battery. Fits 2023-2025 Harley Davidson[®] CVO Road Glide

(FLTRXSE), 2024-2025 Road Glide (FLTRX) and CVO Road Glide Glide ST (FLTRXSTSE).

DRAG: 2001-3047 RETAIL: \$1,499.95/KIT

Shark Demon® 2 Headlight & Fog Lamp Combo Kit with Vented Speed Plates

Bright white DOT headlight assembly features a low beam of three projection-style LEDs and a high beam which adds four additional direct-reflective LEDs boasting an impressive 9080 raw/3216 effective lumens. SAE selective yellow fog lamp powers on providing an additional 8050 raw/2050 effective lumens and riding clarity.

Fits 2023-2025 Harley Davidson[®] CVO Road Glide (FLTRXSE), 2024-2025 Road Glide (FLTRX) and CVO Road Glide ST (FLTRXSTSE).

DRAG: 2001-3046 Retail: \$1,499.95/Kit

> Check local and state laws for front turn signal regulations before installation. Kit is compatible with Custom Dynamics' Shark Demon® LED turn signals **PN: 2040-3442** or **2040-3443** or integrated front turn signal vents **PN: 2040-3444** or **2040-3445**, all options sold separately.

ProBEAM® LED Headlights with Adaptive Technology:

Featuring JW Speaker's cutting-edge Adaptive technology, these headlamps add light in real-time as you lean into turns, ensuring optimal light output where you need it most. With an impressive 1,500 feet of road visibility, these headlamps enhance safety by lighting up dark corners. The durable, lightweight die-cast aluminum housing makes installation a breeze with plug-and-play convenience. Illuminate your iourney like never before with headlamps that move with you!

Auxiliary Run & Turn LED Lower Fairing Lights

These lights mount directly to your OEM lower fairings and feature a bold honeycomb grille surrounded by ultrabright chip-on-board LEDs. The included plug-and-play wiring harness connects easily under the front fairing to power both running lights and turn signals — no hassle, just awesome illumination.

Available Fitments:

• 2014-2024 Harley-Davidson® Ultra FLHTCU/FLHTK models, 2016-2019 Road Glide Ultra (FLTRU), 2020-2024 Road Glide Limited (FLTRK), 2015-2016 CVO™ Road Glide Ultra (FLTRUSE), 2022-2023 Road Glide Limited CVO™ (FLTRKSE), 2015-2019 Street Glide CVO™ (FLHXSE), & 2014-2025 Tri Glide models.

Optional Blocker Plates PN: 0521-1898 (sold separately) can be installed behind the grill for a solid panel appearance on select models without lower radiators.

SMART Amber/Red LED 1157 Bullet Turn Signals with Controller

Using a patent pending technology, these plug and play LED clusters offer 48 LEDs which illuminate Red as a running and brake light, then switch to blink Amber as a full-contrast turn signal. Units are DOT/SAE compliant and include smoked turn signal lenses with watertight gaskets. Required SMART Turn Signal module is included with plug and play installation under the seat and applies choice of 10 optional brake flash/ strobe patterns to the LED turn signals. Brake pattern can also be applied to any additional Dual Color or Sequential (4 wire) Custom Dynamics® rear lighting product installed on the motorcycle.

Low Rider ST Fairing Vent Lights

Fill the voids in the OEM Low Rider ST fairing with a single row of dual color LEDs and decorative black mesh. 18 LEDs border each edge providing bright white DRL with full contrast amber turn signal. Units are equipped with a plug and play wire harness for easy wire connections under the front fairing.

Fits: 2022-2025 Harley-Davidson[®] Softail Low Rider ST (FXLRST) & 2022 Low Rider El Diablo (FXRST).

DRAG: 2040-3229 RETAIL: \$115.95/PR

Low Rider ST Decorative Fairing Vent Insert

Fill the center void in the OEM Low Rider ST fairing with a decorative black mesh and gloss black trim. Snaps in place to screen the opening without preventing air flow.

Fits: 2022-2025 Harley-Davidson® Softail Low Rider ST (FXLRST) & 2022 Low Rider El Diablo (FXRST).

DRAG: 2350-0595 Retail: \$59.95/ea

Low Rider ST Performance LED Front Turn Signals

Aggressively styled LED front turn signals offer the brightest white running light with full contrast DOT-compliant amber turn signal. Faceted smoked lens is inset into a gloss black or dark bronze metal housing with stainless fasteners. Units are a direct replacement for Low Rider ST OEM front turn signals and are equipped with plug and play connectors for easy installation.

Fits: 2022-2025 Harley-Davidson® Softail Low Rider ST (FXLRST) & 2022 Low Rider El Diablo (FXRST).

GLOSS BLACK: 2020-2216 DARK BRONZE: 2020-2217 Retail: \$159.95/PR

Low Rider ST LED Windshield Trim

Low profile metal housing in gloss black or dark bronze finish encases a single row of dual color LEDs behind a smoked lens. Bright white DRL shines bright across the lower edge of the windshield with full contrast, customizable amber turn signals. Select one of three built-in turn signal modes by using the provided magnet. Turn signals can flash solid on, sequential on (LEDs turn on from center of the bike, outwards) or sequential off (all LEDs on, then turn off from center of the bike, outwards). Extended wire leads plug in under the fairing for easy installation.

Fits: 2022-2025 Harley-Davidson® Softail Low Rider ST (FXLRST) & 2022 Low Rider El Diablo (FXRST).

GLOSS BLACK: 2040-3249 DARK BRONZE: 2040-3250 RETAIL: \$199.95/PR

Low profile, die-cast aluminum turn signals mount to the OEM mirror stem to sit flush with the OEM controls on most Harley-Davidson® Sportster, Dyna, Softail, and Road King models. Each turn signal features 5 dual color LEDs with bright white running light and full contrast amber turn signals. Textured satin black finish and smoked lens blend in with controls when not illuminated. 26 awg, 48 inch wire leads are equipped with IP68 rated JAE connectors for plug and play installation with Run/Turn Signal Adapters (sold separately). Connectors can be removed for custom 3-wire installation.

DRAG: 2040-3063 RETAIL: \$99.95/PR

Mirror Mount LED Front Turn Signals

Micro LED **Turn Signals**

Measuring smaller than a quarter, these micro bullet turn signals are bright and compact. Quality aluminum bullet shaped housing with sealed acrylic spherical lens maximizes LED light output for a bright spot of light.

Dual Color 3-wire units function as red brake light on the rear, white running light on the front with full contrast amber turn signal flash. wire leads are equipped with IP68 rated JAE connectors for plug and play installation with Run/Turn Signal Adapters (sold separately).

Lower Saddlebag LED Side Marker Lights

Increase side visibility with a band of 84 chip-on-board red LEDs behind a faceted red or smoked lens at the lower edge of each OEM saddlebag. The low profile chrome or gloss black housing adds a custom look while dual intensity LEDs provide additional run/brake/turn or run/turn function depending on model. Units adhere with automotive grade tape and incorporate a durable polycarbonate lens. Included wire harness allows for plug and play installation under the seat.

Custom Dynamics[®] Low Profile LED Taillight

Custom Dynamics[®] LED low-profile taillight offers 45 dual intensity red LEDs with a Red or Smoked lens and optional top license plate illumination window. A new spherical internal lens design magnifies the light output to produce a bright red running and brake light and increased side visibility. Our most compact design yet protrudes only two inches from the stock taillight baseplate for a sleek, modern taillight solution for the rear fender. Replacement gasket and nylon washers included for a simple plug and play installation into OEM taillight circuit board for most 1999-2025 Harley-Davidson models (except 2025 Softail) equipped with a OEM Squareback Taillight (OEM Item: 68245-03). All options are DOT, SAE & ECE Compliant.

Low Profile License Plate Assembly

Your motorcycle deserves a better designed license plate mount! Replace the factory license plate assembly with Custom Dynamics® mount. The durable die-cast, low profile radius design hugs the fender for a sleek, custom look. Unit is a direct bolt on replacement for the OEM license plate mount, lamp & cover. Add license plate illumination with compatible Custom Dynamics[®] Illuminated CVO™ License Plate Frame. Fits standard 4" x 7" motorcycle license plates.

2030-1960

ProBEAM[®] CVO™ Taillight Panels

ProBEAM[®] LED Panels for Harley-Davidson[®] models have been engineered from the ground up using the highest quality automotive LEDs and modern light pipe design! Custom Dynamics® premium line of aftermarket LED taillight panels now provide maximized safety through modern technology for Harley-Davidson® CVO™ motorcycles. 9 light pipes illuminate across each sealed unit as the constant on running light, with additional LEDs that provide a full contrast brake light and turn signal.

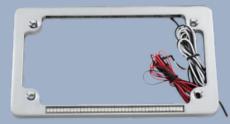

Horizontal License Plate Frame with Run/Brake LEDs

Low profile aluminum horizontal license plate frame with 6 white LEDs built in for license plate illumination and 40 dual intensity red LEDs which can be wired to function as Brake only or Running/Brake. Available in Chrome or Black finish. Mounting hardware included. Lifetime warranty against LED failure. Compatible with 12VDC systems with negative ground.

DRAG: 2030-0990 (CHROME) DRAG: 2030-0991 (GLOSS BLACK) **RETAIL: \$99.95/EA**

11

Tri-Frame with Red Run/Brake/Turn LEDs

Low profile aluminum horizontal or radius license plate frame with 6 white LEDs built in for license plate illumination. 20 dual intensity red LEDs are flush mounted on each side to function as run, brake, and turn on bikes with rear 1157 turn signals (models without a center taillight). Available in Chrome or Black finish with Horizontal (flat) or Radius (12 degree) curvature . Mounting hardware included. Lifetime warranty against LED failure. Dimensions: 7-3/16" L x 4-1/4" W

Mounting holes, center to center: 5-3/4" x 2-13/16"

Note: Not for use with vertically-mounted plates. Note: Confirm license plate mounting bracket before purchasing. OEM mounting bracket may need to be modified or changed for radius license plate frame to mount properly. Radius Plate frame requires 12 degree curved mounting.

ProBEAST[™] Dual Tone Air Horn

Custom Dynamics® ProBEAST™ Motorcycle Horns are a direct replacement for Harley-Davidson® stock "cow bell" horn. This compact dual tone air horn with an attention grabbing 104.9db rating (at 2 meters) makes it even louder than the MiniBeast[™]. Built with a heavy duty metal bracket and ABS cover for long lasting durability, the internals are 100% self-contained with included plug and play wire harness. BCM Compliant with industry leading 3 year warranty.

DRAG: 2107-0310 (BLACK) \$239.95/EA DRAG 2107-0311 (CHROME) \$249.95/EA

Features:

- Dual Tone Air Horn104.9dB (at 2 meters)
- Heavy Gauge Mounting Bracket **Durable ABS Plastic Cover**
- Wiring Harness Included
- Plug and Play Installation
- **BCM** Compliant

Fits: 2025-EARLIER Harley-Davidson® Road King (FLHR), 2024-EARLIER Electra Glide/Ultra (FLHT), Street Glide (FLHX), Road Glide (FLTR) models (except 23.5-2025 Street Glide & Road Glide models). 2009-2025 Tri Glide Ultra (FLHTCUTG), 2010-2011 Street Glide Trike (FLHXXX), 2020-2022 CVO Tri Glide (FLHTCUTGSE), 2015-2025 Freewheeler (FLRT), 2023-2025 Road Glide 3 (FLRTR), 2022-Earlier

Sportster 1200 Custom (XL1200C), Super Low (XL1200T) and Seventy-Two (XL1200V), 2017-Earlier Dyna models (Except 2014-2017 FXDL/FXDLS), and 2017-Earlier Softail models (Except FXSB/FXSE, FXS, FXCW/FXCWC).Note: Must be used with stock rubber isolator and ProBEAST™ Air Horns are not compatible with Love Jugs or any similar mount accessories.

109 dB Electromagnetic Horn Kit

Replace the factory horn with 109 dB (at 2 meters) electromagnetic MARCO horn. Simple plug and play installation with connection to factory wiring.

SMART TSM

REPLACES OEM TSM, TSSM, & HFSM ON 2001-2013 HARLEY-DAVIDSON MODELS

- Functions as TSM only, no security functions.
- Compatible with LED or incandescent bulbs eliminating the need for a load equalizer or Signal Stabilizer when converting to BCM compliant LED turn signals.
- Follows OEM TSM manual password learning procedure and compatible with TechnoResearch module replacement procedure.
- Offers both manual and self-cancelling turn signal cancellation functions based on speed, timing, and direction of the motorcycle
- Full operation of four-way hazards along with upgraded, smart cancellation based on time, ignition position, and battery voltage
- Provides automatic shut off parameters when vehicle tilt exceeds 45° right or left for 1 second or more.

Low current consumption with built-in short circuit & over circuit protection.

- Robust, high-quality components with a 3-year manufacturer warranty.
- Wide operating voltage: 11VDC to 15VDC

Smart Signal Stabilizer™

Designed to bring your new LED turn signals back to a smooth, normal flash rate, this slimline unit is a game-changer for any early-model Harley-Davidson[®] motorcycle with upgraded LED turn signals. Equipped with mating OEM connectors for easy installation under your seat. Whether you're upgrading the front, rear, or both turn signals, just one module is all it takes! It's also fully compatible with incandescent bulbs, so you can mix and match without worry. Plus, enjoy the convenience of 4-way hazard lights—unlike traditional load equalizers that rely on heat type resistors, our Signal Stabilizer™ module keeps your motorcycle running safely and with a Lifetime Warranty, you can hit the

Tour with confidence.

SMART Triple Play[®]

Converts OEM Rear Turn Signals to Run, Brake & Turn Signals

Plug and play SMART Triple Play® module converts rear 1156 turn signals (models with a center taillight) to function as run, brake, and turn with choice of 10 user selectable built in brake light strobe/flash patterns (user can also select no strobe/flash on brake). Additional functions include selectable running light intensities to match the running light brightness of turn signals to center taillight, ability to apply brake strobe/flash patterns to center taillight only, rear turns only, or rear turns and center taillight, and built in SMART function which allows normal turn signal flash to override the brake strobe/flash when simultaneously braking and turning. Rear turn signals must be converted to red color for DOT compliance.

Add Extension Harness **PN:2120-0976** (sold separately) to power up to 3 Custom Dynamics[®] dual intensity lighting products off the Triple Play.

68 EVERYTHING TO LIGHT UP YOUR RIDE!®

Auto Canceling Turn Signal Module

- Plug and play OEM flasher replacement converts turn signals to auto-canceling with the added feature of 4-way flashers
- Select from three different auto-cancel modes (10, 20 or 40 seconds) by length of time the turn signal switch is initially held. Latching switches will result in the 40 second mode
- All turn signal modes can be canceled by pressing the same turn signal button a second time. Module also allows for use of LED turn signal conversion preventing a rapid flash
- Works with momentary and latching switches
 Can be used with LED or incandescent bulbs

Turn Signal Decoder

Harley-Davidson[®] CanBus models including 11-current Softail, 12-17 Dyna & 14-current Sportster models with two rear bullet run, brake, turn signals typically carry both turn and brake functions on the same factory wire making it impossible to wire additional amber or red light that functions as turn signal only on the rear of the motorcycle.

Our Turn Signal Decoder breaks out the left and right turn signal wires, with easy to connect Posi-Locks®, making it possible to add a rear amber or red light that functions as turn signal only without changing the stock function of the rear lighting. Compatible with additional add-on LED turn signals only. Required to wire Amber turn signals.

the statement of the st		

*Requires the use of Custom Dynamics® LEDs (or any low power current draw LEDs) in the rear. The use of Incandescent or High-Power LEDs (greater than 300ma) will cause the unit to fail and void warranty.

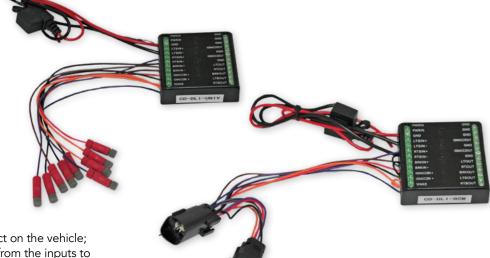

Dynamic Load Isolator

Uses the latest technology to isolate the motorcycle's electronic monitoring system (VCM/ BCM/TSSM) allowing for the use of almost any after-market lighting product or electrical accessory. Simple plug and play installation provides output banks for 5 separate grounds, 2 accessory/run outputs, left turn signal output, right turn signal

output, brake output, integrated right turn/brake output, and integrated left turn/brake output. Optional 4 Pin Trailer Harness (2120-0929) (sold separately) can be wired to the DLI output providing completely isolated plug and play trailer lighting hook up.

The DLI electronically isolates all outputs from the vehicle; there are no relays or other mechanical devices that are subject to mechanical failure. A short circuit on any accessory connected to the

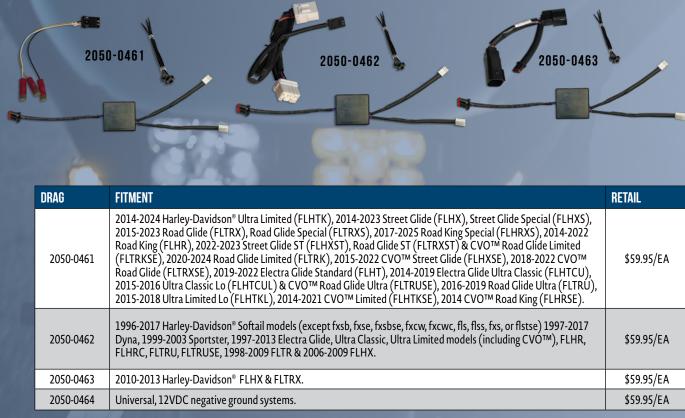

DLI outputs will have no impact on the vehicle; all outputs are 100% isolated from the inputs to avoid damage from faulty after-market accessories, prevent codes, and help protect factory warranty.

Parade Mode Brake Pulse Module

Plug and play brake strobe module takes alerting traffic behind you to the next level! Compatible with single intensity (2wire, brake only) or dual intensity (3-wire, running & brake light) add-on custom LED lighting when used as left and right side rear lighting.

When the brake is applied, the programmed flash or strobe pattern will alternate between left and right side lighting accessories creating an eye-catching pattern. Switches and dial allow you to select from 4 different flash patterns and customize the flashing speed. This module does not affect OEM rear brake lights.

The ProGLOW[™] app connects to the Custom Dynamics[®] ProGLOW[™] motorcycle LED lighting system to customize and control your color changing lights. Easy to navigate interface allows for up to three zones to be controlled and customized independently with programmed solid color or color changing animation modes. Unlimited color combinations can be selected using the color wheel or color-match technology with camera access while easy to use sliders let you fine-tune the brightness and speed of each movement. ProGLOW[™] can also be synced with music for a complete audiovisual experience. Optional brake alert function can be enabled for increased safety while riding.

While added battery monitor, timer and security features give you control of your lights when out of sight.

30 DAY RETURN/EXCHANGE POLICY

RETURN AUTHORIZATION NUMBER must be issued before any returns or exchanges can be made. We will not accept any returns without this number. Please write this number clearly on the outside of the returning package. All returns must be received by Custom Dynamics within 30 days from date of shipment. The Return Authorization Number does not imply a replacement or refund, but only that we will inspect the merchandise based on your claim. Returns must be sent freight prepaid and insured by you. Original shipping and handling charges are not refundable. A photo copy of your invoice showing the invoice number must accompany your return along with a written explanation and a contact phone number where we may be able to reach you. It is the responsibility of the customer/installer to verify the correctness of size and application of the parts before installation. All approved refunds will be paid by either Company Check, credit Card Credit, or Account Credit, all to be determined by Custom Dynamics. No cancellations, refunds, or exchanges on special order items or custom order items will be allowed. In order for a returned item to be accepted, the returned item must be in its original condition (no damage) and returned in it's original packaging. Product must be in new condition. No return or exchange on merchandise that shows signs of having been installed, mounted, scratched, or defaced will be allowed. Items that receive Free Shipping and are returned will be subject to a Shipping Fee to cover the original shipping costs. All returns are subject to a Repackaging Fee if items returned are missing any components or requires repackaging. Claims for missing, lost or damaged packages must be made within 48 hours of receipt of shipment.

WARRANTY

Limited Warranty - Custom Dynamics® warrants that products sold hereunder, if maintained and operated under normal conditions, shall be free from any defects in materials and workmanship for a period of three (3) years from date of purchase for remote controls, lifetime warranty on electrical modules, and a lifetime warranty against LED failure, unless otherwise noted. Customer is responsible for all return shipping charges. Please include a written explanation and a contact phone number where we may be able to reach you along with your return. No warranty whatsoever will be valid if the defect was caused by customers abuse, negligence, and/or mishandling. Customer maybe responsible for shipping and handling fees. No labor or inconvenience may be included in any claims. Please note, if the item is tested and found not to be defective, the customer may be charged a fee to reship the item , we encourage you to work with us to trouble shoot any problem you may be having before sending an item back.

DISCLAIMER

Custom Dynamics® shall not be liable for any consequential or incidental damages whatsoever. Custom Dynamics® liability is limited to repair or replacement of the item(s) purchased. Use of these products may be limited, regulated, or prohibited in your state, please check with all applicable motor vehicle code and laws before installing.

PRIVACY

Custom Dynamics® does not sell or in any way distribute its customers' personal information. Your personal information will always remain confidential.

INTELLECTUAL PROPERTY POLICIES

All materials contained on this site are protected by the Copyright Laws of the United States and may not be copied, reproduced, distributed, published or broadcast apart from this website without the prior express written permission of Custom Dynamics. This prohibition extends to all works on this website to include all images. The trademarks and servicemarks of Custom Dynamics are protected by the laws of the United States and may not be used or reproduced without the prior express written permission of Custom Dynamics. This prohibition extends to the use of marks that are confusingly similar to the marks of Custom Dynamics. Custom Dynamics treats all of its product names as trademarks. In addition, the following marks are registered marks with the United States Patent and Trademark Office: CUSTOM DYNAMICS®, EVERYTHING TO LIGHT UP YOUR RIDE[®], STINGERZ[®], TRUFLEX[®], MAGICFLEX[®], TRUWRAPZ[®], SUN SPOTS[®], GENESIS[®], SMART TRIPLE PLAY[®], TRUBEAM[®], PROBEAM[®], FILLERZ[®]

STATE LAWS

Check your local and state laws regarding the use of LED accent lighting while riding, some states do not allow the display of blue or red lights when riding.

DEALER MAP

All sales are conditioned on and subject to the purchaser's compliance with the Custom Dynamics Advertising Policy. In order to preserve its reputation for providing customers with high value products and exceptional customer service, and to further the Custom Dynamics[®] brand and its competitiveness in the marketplace, Custom Dynamics[®] is unilaterally instituting an advertising policy for all Custom Dynamics[®] products. This policy will become effective July 1, 2014 and will apply to distributors and retailers, including catalogs and internet retailers (collectively, "Resellers"), who resell Custom Dynamics® products to end users located in the United States. Custom Dynamics® greatly values the efforts of all Resellers to distribute our products and support our customers. This policy is adopted for the benefit of all Resellers and will be uniformly enforced.
