### Part Numbers:
- CD-RG-WT-15-B
- CD-RG-WT-15-C

### Package Contents:
- LED Windshield Trim Assemblies (pair)
- 10-32 Button Head Cap Screw w/Washer (x4)

### Installation:
1. Remove the 4 stock windshield bolts and remove the windshield.
2. Remove factory vent by pulling straight up on the vent. The vent comes snapped in place.
3. Locate and unplug the left and right side 3 pin turn signal harness.
4. Plug in the windshield trim plugs into both male and female sides of the turn signal harness from Step 2. Repeat for the opposite side.
5. Allow the windshield trim wires to run through the space shown.
6. Re-install the factory vent by snapping it into place.
7. Install the windshield and the windshield trim lights supplied hardware.
   **Note:** Make sure the wires route at the sides of the fairing into the gap between the inner and outer fairings and the windshield trim to prevent pinching.
8. Perform a BCM sync by turning key on, turn 4 way hazards on, turn key off. Allow hazards to run for 3-4 minutes. Turn Key on, Turn Hazards off, Turn Key off.
9. Test operation of running and turn signal lights.

### ATTENTION
Please read all Information below before Installation

**Warning:** Disconnect negative battery cable from battery; refer to owner’s manual. Failure to do so may result in electrical shock, injury, or fire. Secure negative battery cable away from positive side of battery and all other positive voltage sources on vehicle.

**Safety First:** Make sure the bike is parked on a level surface and bike’s mechanical components are cool to the touch.

**Notice:** This product is designed and intended for use as auxiliary lighting on motorcycles only. This product is NOT intended to replace any original equipment lighting installed on the motorcycle and should not be used for that purpose. This product must be wired in such a fashion that it does not interfere with any original equipment lighting.

**Note:** You will have to remove the front fairing in order to complete this installation. Please refer to your manufacturer’s service manual if unsure of this procedure.

**Cleaning:** Take special care in cleaning the finish. Use only Alcohol or Isopropyl and a fine microfiber cloth to remove dirt or debris. Never use abrasive polishes or cleaners as these can scratch the finish.
